## Trouble Areas

- Doors and windows
- Balconies
- Bathtubs and sinks
- Toilets
- Fireplace

Dogs and cats are more likely to be injured in these areas of your home. Keep your pets away from these places or watch them closely when they're near them if you can.

## Outside the Home

- Algae
- Antifreeze/coolant
- Fire pit/grill
- Fences or gates
- Deck lattice
- Non-pet safe de-icing salts
- Compost (particularly if moldy)
- Gasoline
- Oil
- Pesticides
- Fertilizers
- Pools and hot tubs

Make sure your pets are safe as they enjoy the outdoors by keeping them leashed and away from these potential dangers.

**\*Poisoning symptoms vary, but your pet may experience vomiting, diarrhea, or lethargy. When you call your veterinarian or the Animal Poison Control Center, be ready with information about your pet's age, breed, and the potential poison.\***
